

One-Stop Resource Guide

TRANSFORMING WORKFORCE & WORKPLACES FOR THE FUTURE

An initiative by the Taskforce for Architectural and Engineering Consultants

What is the **One-Stop Resource Guide**?

This guide is designed to provide consultancy firms and individuals the essential information, tools, and support related to transforming your enterprise and workforce.

The launch of this guide was recommended by the Taskforce for Architectural and Engineering Consultants. The Taskforce is co-chaired by Ms Indranee Rajah, Second Minister for National Development, and Mr Chaly Mah, Chairman of Surbana Jurong Group, and comprises representatives from the key Trade Associations and Chambers (TACs), consultancy firms, major service buyers, Institutes of Higher Learning (IHLs), public agencies and young professionals.

The Taskforce was set up to ensure that Singapore has a capable talent pipeline of Built Environment (BE) professionals and firms to deliver on Singapore's infrastructure plans, and has been working on 4 key areas of focus:

- Uplifting branding of the BE sector and strengthening talent inflow;
- Transforming the workforce and workplaces for the future;
- Evolving existing BE consultancy business models; and
- Propagating sustainable industry practices.

Who is the **One-Stop Resource Guide** for?

FOR CONSULTANCY FIRM LEADERS

You can find information on support available to transform your workforce, HR practices, business practices, as well as to adopt technologies. While this guide aims to consolidate key information, it may not be exhaustive. For more support measures, please visit the GoBusiness Portal (<https://www.gobusiness.gov.sg/>)

FOR PROFESSIONALS IN THE SECTOR

You can find information and support related to upskilling and training, so that you can remain well-equipped in advising your clients on the latest developments in the industry.

What can **Consultancy Firm Leaders** do?

1 BUSINESS TRANSFORMATION

To transform your business to ensure capabilities of employees are up-to-date.

CAPABILITY BUILDING

Invest in employees' continuing education and development through further education and professional certifications.

Develop an in-house pool of skilled trainers who can help to evaluate learning opportunities and implement training systems that are customised to your firm's needs via the **Workplace Learning by NACE**
