

bizSAFE Level-2

Develop A Risk Management Implementation Plan

(Technical Skills and Competencies (TSC) Title is known as “Workplace Safety and Health Control Measures”)

Accredited by the SkillsFuture Singapore (SSG)

OBJECTIVE

Workplace Safety and Health (Risk Management) Regulations require stakeholders such as employers, self-employed persons and principals to have the responsibility of identifying safety and health hazards at the workplace and taking appropriate actions to eliminate the hazards or mitigate the risks associated with the hazards. Risk assessment and management is the key to reduce the risks at source.

Participant who attends this course will have an in-depth understanding and knowledge on the concepts and methodologies of risk assessment and management. This course will also provide hands-on experience in the risk assessment for construction activities and development of risk management implementation plan.

CONTENTS

- Risk Management Concepts
- Regulations and Code of Practice for Risk Management
- Hazard Identification Process
- Risk Evaluation Methods and Procedures
- Risk Control Measures
- ALARP Concept
- Implementation of Control Measures
- Effectiveness of Control Measures
- Risk Communication
- Developing Workplace Risk Management Plan
- Case Studies related to hazardous construction activities

ASSUMED ATTITUDES, SKILLS & KNOWLEDGE

Applicants are assumed to:

- have an in depth knowledge of the organisational products/services
