#### 74056A: Specialist Diploma in Building Information Modelling (1/2) Module A - Certificate in BIM Design and Coordination

**Please note that the registration is only for SDBIM Module A. To register for the full programme, please sign up for all modules individually.**

**The detailed training dates are listed in the schedule below. Please ensure that you are able to attend ALL trainings before registration. No changing of classes is allowed upon payment.**

As building projects become more complex, Building Information Modelling (BIM) has become an important tool to help building professionals improve their work effectiveness and efficiency. As an integrated design, documentation and construction tool, the strategic implementation of BIM in building projects would enhance communication and multi-disciplinary collaboration among all the project stakeholders, significantly improving the design, construction and operation processes, with productivity gains and returns.

#### MODULAR CERTIFICATE A: Certificate in BIM Design Documentation, Analysis and Coordination

This certificate enables learners to be proficient in BIM processes and develop strategic skills for BIM implementation, design documentation and coordination. Learners will be taught to perform qualitative design checks with BIM applications, and perform design analysis on energy usage and simple structures.

#### COURSES OFFERED:

- BIM Standards and Implementation Strategies
- BIM for Design Coordination & Documentation
- BIM for Design Analysis
- Project

Duration: Modular Certificate A - 60 hours  
(Assessment: 3 hrs)
