Understanding Green Mark 2021

Enhanced from Green Mark Refresher Course

INTRODUCTION

Under the Singapore Green Building Masterplan (SGBMP), more ambitious targets to green the Built Environment sector has been set. The Masterplan, dubbed “80-80-80 in 2030” captures our collective commitment to pursue more ambitious standards in our Built Environment to meet our global climate change commitments. It targets greening 80% of Singapore’s buildings by Gross Floor Area (GFA) by 2030, 80% of new developments (by GFA) to be Super Low Energy (SLE) buildings from 2030, and 80% improvement in energy efficiency to best-in-class green buildings by 2030. As such, BCA has newly launched the BCA Green Mark 2021 (GM: 2021) framework, which places stronger focus on outcome-based indicators, covers wider sustainability issues and introduces a new SLE energy efficiency standards for residential buildings. To provide and support continued capability development in the area of sustainability to build a pool of competent Green Specialists, this course aims to keep professionals abreast on the latest GM: 2021 framework.

To equip practitioners with latest development of the green building initiatives and BCA Green Mark criteria, keeping industry practitioners abreast on latest initiatives and requirements.

LEARNING OUTCOMES

At the end of the course, participants will get the latest update on:

- Singapore Green Plan 2030 and Singapore Green Building Masterplan
- Key Updates on the Regulatory Requirements on Environmental Sustainability for Buildings
- Key Enhancements in GM: 2021 Criteria

TARGET AUDIENCE

- Past graduates of Green Mark certification courses and all professionals accredited under the SGBC Green Mark Accredited Professional Scheme.
- Practising green building personnel and industry professionals who are keen to learn about GM: 2021.

AWARD

Participants who attended the course will be issued with an e-Statement of Attendance (e-SOA).
