INTRODUCTION

Construction Quality Assessment System (CONQUAS) is a voluntary scheme developed by BCA in conjunction with the major public sector agencies and various industry professional bodies to measure quality level achieved in a completed project. As part of the requirements for the Certified QM/CONQUAS Manager schemes which accord recognition to construction personnel who are instrumental in ensuring and delivering high quality projects as reflected in high CONQUAS score projects, the Certified QM/CONQUAS Managers course provides necessary knowledge to enable the participants to effectively implement Quality Management System (QMS) and achieve better Quality Mark (QM)/CONQUAS score.

OBJECTIVES

This course aims to enable participants to implement Quality Management System (QMS) more effectively in a building construction project to improve work processes, and apply practical strategies at different stages of a building construction project to achieve better Quality Mark(QM)/CONQUAS score.

CONTENTS

- Application of QMS in achieving improved quality in building construction projects
- Role of QMS in building construction projects
- Strategies to adopt at different stages of a building construction project to improve QM/CONQUAS scores
- Current trends and improvements in building construction quality
- Group Exercises
