bizSAFE Level-4

Develop a Workplace Safety and Health Management System Implementation Plan

Accredited by the SkillsFuture Singapore (SSG)

INTRODUCTION

bizSAFE is a five-level programme devised by the WSH Council (WSHC) to assist companies build up their WSH capabilities in order to achieve quantum improvements in safety and health standards at their workplaces. Companies are guided through a journey, starting from top management demonstrating their commitment towards WSH, to acquiring risk management capabilities and implementing a WSH Management System. In the process, participating Companies gain recognition and benefits of having a comprehensive WSH system in place.

In the bizSAFE learning journey, this Level 4 course is meant for individuals who are appointed as WSH Management System Programme Lead and responsible for implementing WSH Management System in accordance with the requirements of Singapore Standard on Occupational Safety and Health Management System SS 506. This course has been accredited by the SSG.

CONTENTS

1. Review WSH policy and risk management plan for deficiencies against the requirements of SS 506 and risk management code of practice
2. Apply hazard identification and risk assessment methodology
3. Set WSH objectives and determine specific programme(s) to achieve the objectives
4. Establish WSH management programme framework for organisation
5. Establish a framework for organisational emergency preparedness and response plan
6. Develop operational control to manage the WSH risks
7. Develop performance measurement and monitoring procedure to monitor and measure WSH performance
8. Develop processes for investigation and reporting of accident/incident
9. Establish an internal audit programme to evaluate the organisational WSH management system
